IF 증가 Strategy (처음부터 편집위원회 workshop 논의)

1. 좋은 논문 출판 -> 학회 임원, 위원들이 **SCI(E)** 논문 투고를 많이 해서
JNM 논문을 1-2개 이상 꼭 인용할 것.
2. **JNM Editorial Board Member**에게 이에 대해 강조할 것.
3. **JNM** 투고 논문 심사시 심사위원들이 **decision**에 적어도 한 개 이상의
구체적이고 적절한 **JNM** 논문을 제시하면서 투고 논문의 **reference**로 해달라고
suggestion할 것.
4. 해외 우수학자들에게 **JNM**을 적극 홍보 ->
hard copy or e-mail for article downloading
5. **Discussing through Twitter or Facebook**
6. 정기적으로 **News letter** 형식으로 홍보 – 전산위원회

**RE: Journal Evaluation Status Request-
Journal of Neurogastroenterology and Motility
2010/09/08 Wed. 11:59:04 PM**

We have completed our evaluation of the *Journal of Neurogastroenterology and Motility* and find that we cannot accept it for coverage in Thomson Reuters products at this time.

Our evaluation process considers many factors, including the journal's content, format, adherence to publication schedule, and geographic origin. Other considerations are our subscribers' requests, the extent of our current coverage of the discipline, and the journal citation record--how often a journal is cited, which journals cite it and are cited by it.

Thomson Reuters strives to provide comprehensive but not all-inclusive coverage of the world's best journals. We receive and evaluate thousands of journals annually; many of those are scholarly and of good quality.

Below is the web address of our essay on the selection process for journal coverage:

Thank you for the opportunity to become familiar with this journal.
